

# Coronavirus Pandemic Response: PPE Packages for Nursing Homes

---

Attached is a FEMA Fact Sheet on PPE Packages for Nursing Homes. Under the direction of the White House Coronavirus Task Force, FEMA will coordinate two shipments totaling a 14-day supply of personal protective equipment (PPE) to more than 15,000 nursing homes across the Nation.

The mission will supplement existing efforts to ensure nursing homes across the country have PPE during the coronavirus (COVID-19) pandemic. FEMA will ship PPE to Medicaid- and Medicare-certified nursing homes based on input from the American Health Care Association to serve as a bridge between other PPE shipments.

Due to the critical need for PPE at nursing homes where some of our Nation's most vulnerable residents live, these supplies are meant to supplement existing PPE efforts by the federal government. FEMA and HHS continue working with states, territories, and tribes on PPE needs through a variety of ways.
