

Hi Ryan,

We do work with NP and PA's that could help. Depending on the needs and locations would vary how many providers we can deploy. Also if they have to have a NH license or if any active, unrestricted license will work will affect how many providers we can use.

The rate for local providers (NP/PAs) without travel would be \$75/hr.

The rate for providers that require travel (NP/PAs) with travel/housing would be \$90/hr.

Do you want me to put these comments in the GSA or are you able to use this email as a response to RFI?

Thanks,

Tamina Masina

Subject: RE: RFQ1468316 (RFI-Nursing Professionals Needed in NH) COVID testing questions

Good morning,

FEMA Leadership would like to confirm immediate availability of your staff if a need were to materialize in the near future. Do you currently have staff ready for immediate deployment (within a couple days)? Unfortunately I can't give an accurate estimate on the number of staff that would be requested or the length of time.

Thank you,

Ryan Colgan

Subject: RFQ1468316 (RFI-Nursing Professionals Needed in NH) COVID testing questions

Hi Ryan,

I am looking into RFQ1468316 (RFI – Nursing Professionals Needed in NH) for the COVID testing and have a few questions:

1. Will any state license work or do they have to have an active NH license?
2. Will all of the needs be at one site or will this be at multiple sites? If more than one site, how far apart are they located?
3. Approximately how many providers are needed?
4. If travel is required to bring a provider in are we able to quote you 2 prices? One for local and one for travel providers?

Thanks,
